

CIW Pro-Turner Program featuring Jason Swanson

Saturday, March 25th

From Racine WI, Jason Swanson is a woodturner with many years' experience who has been active in Regional and National Turning expos. Jason has been selected to demo at the 2017 AAW Symposium in Kansas City. Jason will demo three projects for the CIW. We will see him produce a pepper grinder. His method offers higher likelihood of grain match. He will then show us how he creates his signature staved blanks. If you are interested in making interesting blanks from the boards you have left over from your flat work days, for Peppergrinders, bottle stoppers, pens or boxes you will want to see this. Jason also has a reputation for hand chasing threads in lidded boxes. Jason comes highly recommended by a CIW member and his peers in the woodturning community.

Location: Frank's Shop (149 N. 38th Rd. Mendota IL) Find directions on CIW Website.

Lunch / Refreshments / Accommodations: Lunch will be provided. Donations of cookies or other treats are always welcome at CIW events. Bring your comfy folding chair.

Saturday, 9:00 – 3:00

Registration Fees, CIW is subsidizing approximately half of the program cost.
